Week 4

Chapter 2 Computer communication and human computer interaction models

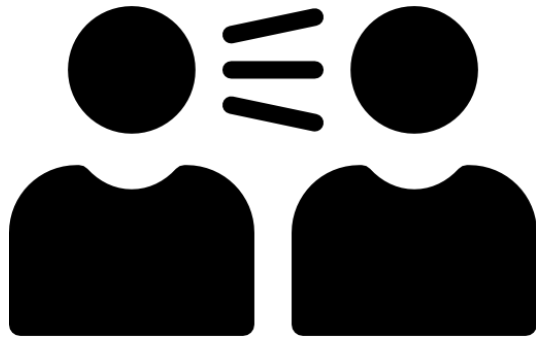

Topic

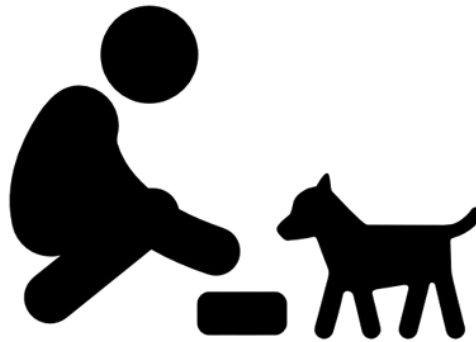

Communication and human – computer interaction models

Interaction Design Basic

**Interaction
between people**

**Interaction
between people
and animals**

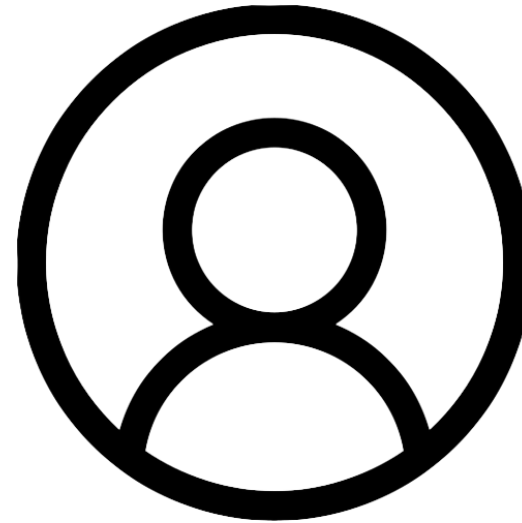

**Interaction
between people
and things**

Interaction Design Basic

Learn to
understand
computer systems

Learn to
understand users

Design Process

1 study needs

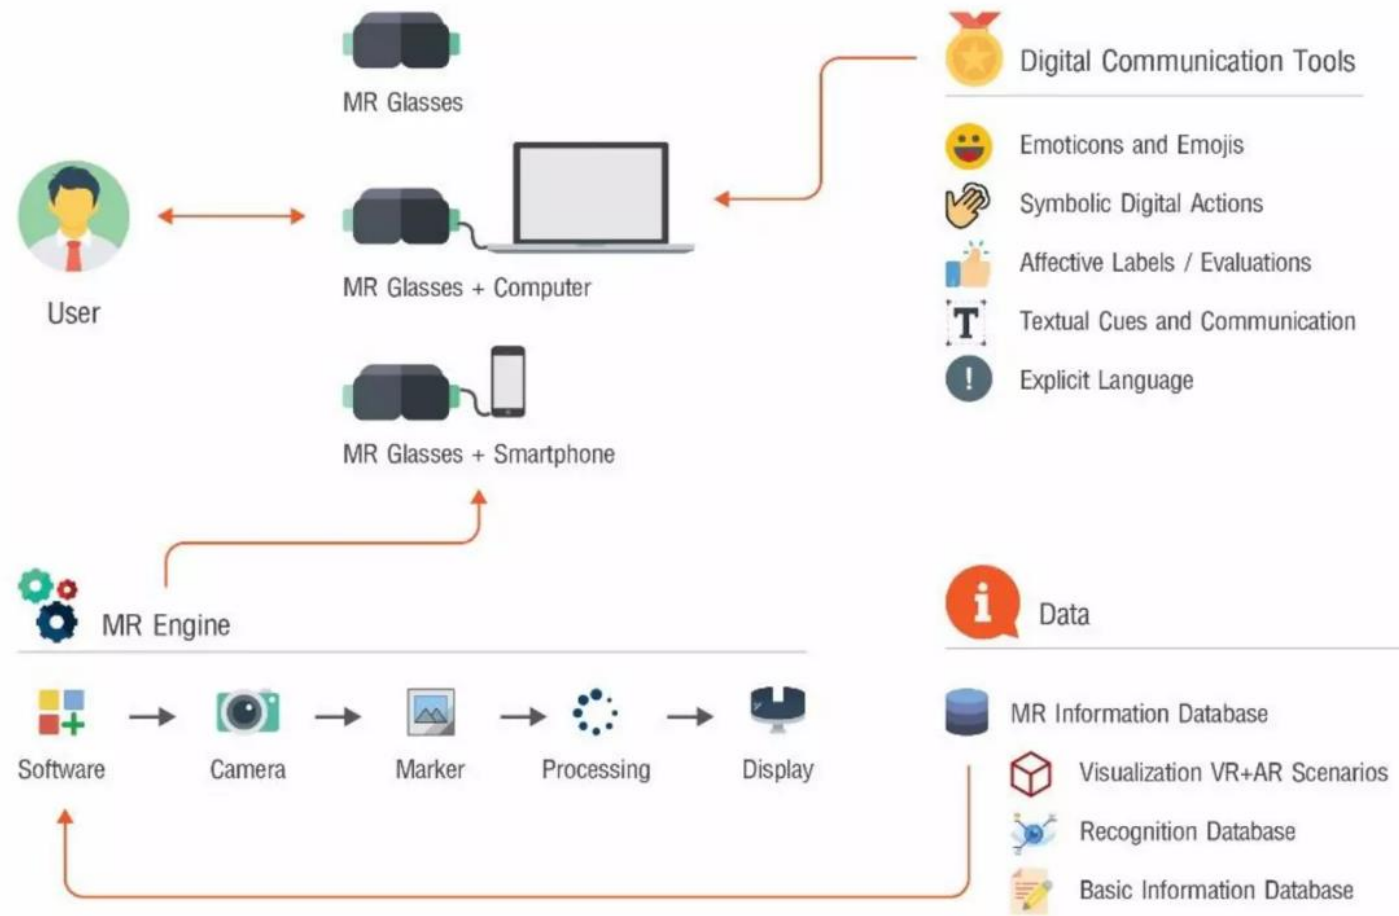

2 analysis

3 Design

4 Iterations and
Prototypes

5 Improving and
Implementing

Example Model HCI

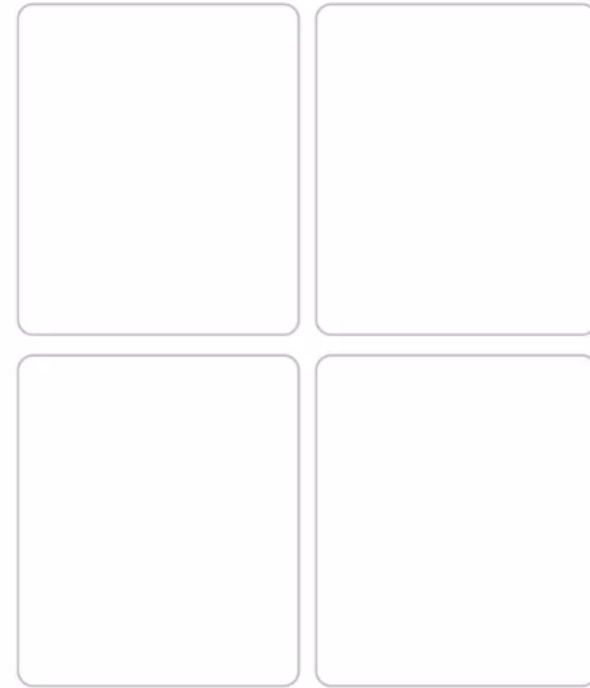

Direction in design

simple structure

Comprehensive structure

Activity

Study communication channels via computer and studying case studies of human-computer interaction models
