Parish Nurse

COMMUNITY NURSE

NURSE PRACTITIONER

# Bedside Nursing vs Community Health Nursing

## Bedside Nursing vs. Community Health Nursing

Bedside Nurses		Community Health Nurses
Handle personal healthcare issues for individual patients		Handle public healthcare issues for a whole community or group
Treat illness and disease		Prevent risk of illness and disease and promote health
Consult with physicians for decisions		Have more authority and autonomy
Work in hospitals or clinical settings		Work in community centers or schools
